Forecast for Saturday 09 Oct 2021

Weather: Monadhalith, Creag Meagaidh down towards Rannoch Moor and across to Cairngorm will see a lot of low cloud and occasional rain through the day. Mainly dry conditions with only small amounts of low cloud are expected east of Aviemore in the lee of Cairngorm in the morning. However low cloud and a little light rain will encroach here from the west through the afternoon. Dry and clearer weather will spread from the west from around dusk onwards.

Chance of cloud free mountain/hill tops above 800m: Little chance for most of daylight hours

Visibility: Generally poor in widespread low cloud down to 500 metres, however clearer conditions are likely east of Aviemore and north of Cairngorm until the early afternoon. Low cloud clearing from the west from dusk onwards with markedly improving visibility, some uncertainty in the timing of this.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View

Poor conditions expected for most of the day with widespread hill fog, summit gales expected in the morning leading to significant wind chill.

Forecast for Sunday 10 Oct 2021

Weather: A much brighter but quite cold day with significant wind chill at higher elevations. A few passing showers are expected, these wintry above 1200 metres, but some reasonable spells of drier weather expected too especially in the southwest.

Maximum wind: Westerly 25 mph with gusts to 40 mph on the higher summits

Chance of cloud free mountain/hill tops above 800m: 80%

Visibility: Generally excellent with great air clarity. Some patchy cloud above 800 metres, and briefly poor in any wintry showers on the higher summits.

Temperature: **Glens:** Plus 4 rising to 13 Celsius
At 800m: Plus 5 Celsius
Freezing level: 1400 metres
